

## CALEESI & SARAH KREIS

When Caleesi & Sarah Kreis play together, it's more than a b2b in the classic sense of a ping-pong game behind the decks: their collaboration is a true symbiosis of sound that brings their individual tastes together seamlessly.

While their musical roots started at different ends of the audio spectrum, they both harbour a strong love for deepness, groovy basslines and warm melancholia that create a special vibe and melt dance floors, all the while pushing the listeners with their unique drive. And because their common love for music doesn't end there, they founded their own music label "Circles & Stones" in 2019 in a bid to shine a light on talented artists whose music they admire.

They are partners in crime that have played mesmerizing sets around the world, taking the crowd on unforgettable journeys through the depths of various genres. Some people would describe their sound as somewhere in between the fringes of deep house and downtempo – but whether it's at their home base in Berlin club Katerblau, or at festivals like Garbicz, Fusion or Burning Man, their sonic flavour speaks for themselves.
