### *Subtlety, power and emotion...*

Passionate about the genres in which imagination and emotions prevail, Aalson finds his inspirations and sensibility in film scores and introspective electronic music. Fascinated by these emotions only music can communicate, he developed along the years a personal taste and a subtle approach to music, loaded with feelings.

Releasing on major labels such as **Sinners**, **Atlant**, **Labo T**, or **Steyoyoke**, Aalson refined his style and offers at each of his releases a musical trip of a rare intensity.

He deepens his musical identity when playing it, as he only performs live wherever he is around the globe. His unmistakable energy on stage, close to a trance state, makes him a true shaman of melody.

To this day, his music is still resonating in the clubs and streets of Amsterdam, Goa, Budapest, or Istanbul...
