

**SONATE** (FR)  
PRESENTATION

Label

---

***«To mix in two worlds, the emotions of classical music with the freedom and energy of electronic music. I thought it would be an end in itself, but it rather was a new beginning».***

March of 2019, Worakls about his first album «Orchestra».

With « **Orchestra** », released on his label **Hungry Music**, and his several collaborations as a soundtrack composer, Worakls dives deeper into his inspirations and creates his own new label: **Sonate**.

The origins of the word describe 'a sounding music'. Created for one or two instruments, this classical music format developed throughout History until taking larger proportions with symphonies. This name perfectly fits the career of an artist that started out as a lone producer and developed including a variety of instruments to his compositions.

With **Sonate**, Worakls writes the first notes of the rest of his career, which promises to be both symphonic and brilliant.
