Infotext

No doubt – **Matchy** can be considered as a leading synonym for modern deep and dynamic techno and house. With a profound sense and a highly empathic absorption, Matchy sprinkled continuously sales charts and playlists with dozens of significant releases with different projects over the past years. An impressive amount of loyal followers, supporters and fans have grown over the time. For a good reason! The enormous qualitative output settled down in the release catalogues at some of the foremost labels in the electronic underground scene within the last years. Alongside more than 10 contributions on the infamous Katermukke label, Matchy placed an incomparable stamp on the imprints music. Following coups with a vigorous effect happened on Coyu's Suara Music or Oliver Koletzki's Stil vor Talent. Moreover, imposing appearances were planted on top-class labels like Hive Audio, Heinz Music, Bar 25, 3000 Grad or Beatfreak Recordings.

This entails a bunch of synergetic collaborations and remixes with well known acts from all over the world. The credibility has increased even more by staying true to himself within diversity. It's music with a meaning! The harmony and interaction between melodic elements and beat is a fundamental matter of the vibe, always with the strength for the next anthem. Heavily proved at numerous gigs in many acclaimed European and South American clubs and festivals like Sonar, Love Family Park or Sonne Mond und Sterne!
